REASONS FOR ALLOWANCE

1. Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate nor render obvious to one ordinary skilled in the art a liquid crystal display device comprising a combination of various elements as claimed, more specifically, a sealant contacts with the second covering layer (photoresist/PR layer) and also contact the portion of the first covering layer (passivation layer) via the opening so that the upper substrate and the lower substrate are adhered.

Kang ('401) discloses a liquid crystal display device comprising a sealant contacting an electrode layer through an opening. However, Kang fails to disclose 'a liquid crystal display device comprising a combination of various elements as claimed, more specifically, a sealant contacts with the second covering layer (photoresist/PR layer) and also contact the portion of the first covering layer (passivation layer) via the opening so that the upper substrate and the lower substrate are adhered'.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
